

FRS Radio Plan

Channel	Assignment	Channel Type*	Notes
1		FRS/GMRS	
2		FRS/GMRS	
3		FRS/GMRS	
4		FRS/GMRS	
5		FRS/GMRS	
6		FRS/GMRS	
7		FRS/GMRS	
8		FRS	
9		FRS	
10		FRS	
11		FRS	
12		FRS	
13		FRS	
14		FRS	
15		GMRS	
16		GMRS	
17		GMRS	
18		GMRS	
19		GMRS	
20		GMRS	
21		GMRS	
22		GMRS	

Neighborhood radio plans using FRS radios (channels 1- 14) should have separate channels allocated for specific tasks and master list of channel allocations should be kept with Planning. Be aware that there may be interference from other users outside your neighborhood.

Example allocations:

- ICS Section Chiefs channel
- Operations (Operations chief could reassign channels allocated to operations)
 - Operations team channel
 - Light Search and Rescue teams (one for each team)
 - Medical

If you don't have enough radios or radio channels get too crowded with users, communications may break down and you may have to rely on other means of communication such as runners to deliver and receive critical information.

*GMRS channels require a Federal Communication Commission (FCC) license for each household. For the FRS/GMRS shared channels you can only broadcast on "low power" (FRS) if you do not have a GMRS license.
